

I think the FCC should not impliment any proposal that would lesson Indiana's Telephone Privacy Law Protections. I don't have to get calls from all kinds of solicitors. Has cut down dramactically. I use to receive 10 calls per day now receive 1 a day. I think we should have the right to say who calls us especially when we pay for unlisted numbers and private lines but they still get to us. Not fair to our privacy law. Shpuld not have our numbers to call unless we give it to them. Please Don't Change Our Laws and Protect Us..We can't call the President and ask him to buy things, why should we have to go through it.
